4.					

Proposal's Contents (not to exceed 4 pages); Upload pdf file.

A. Proposal Title:

B. Objective of the proposal:

- WHAT Challenge you are trying to address
- WHY you think this Challenge is so important

C. Problem Statement:

- Provide a high level view of the solution you are trying to build to address the Challenge

D. Details: Structural, Architectural. Functional

- Provide a H/W and S/W block diagram of your system architecture
- Control algorithm outline, core technologies/methodologies

E. Merits of your System (Solution) with regard to alternatives

- WHY you think your Solution should be considered for the particular challenge it is intended to address

F. Build Plan

- Have you/would you approach a stakeholder to productize your idea
- If selected for next round, would you have demo/video clip ready

Keep your proposal crisp while highlighting the uniqueness of your idea/approach. Proper spelling, grammar, and coherent organization are critical. Remember that the four pages may be the only information about idea for the jury to evaluate your solution.
